VOL. XXXX, No. 22

DIDSBURY, ALBERTA, THURSDAY, JUNE 3rd, 1943

\$2.00 per Year. 5 Cents a Copy

The Superfluity Shop

The Red Cross Superfluity Shop, which is being operated by the junior committee, at Sinder's store, will close at the end of June for the summer.

The shop has been a great success, and the sponsors wish to thank everyone who contributed to the success of the venture, especially to Mr. Studer for giving them the space and for his assistance.

\$28.45 was realized by the shop during May, and a total of \$141.30 has been made since it opened in February.

Every article in the shop has been reduced in price for June. Among a lot of serviceable articles there are two good ladies' winter coats and a lined navy blue jacket in excellent condition. Come and look over the stock and help the Red Cross by helping them sell everything.

A Fish Story.

Alf Studer thinks this story, which comes from his old home town, will interest the fishermen around here:

"Nigger, a nine year old black persian cat, who lives at the home of I. H. Toman, New Dundee, Ont., is a fish as well as a mouser. He came home the other day, still wet from his exploit, trailing two fish about 8 inches long. They were cat fish."

Alf says he probably fished in the same pond when a boy, and he wonders if this story has any effect on Allen Hunsberger's decision to go East this summer.

Beef Calf Clubs Field Day

A Field Day was held at the Francis Farms, Carstairs, on Saturday, May 29. Five beef calf clubs under the leadership of Mr. Hugh McPhail, Olds, were present, namely: Carstairs, Grenada, Madden, Grainger and West Didsbury.

The afternoon was spent in the club members judging some fine Herefords, and hearing speakers from the school of Agriculture, Olds.

W. Edgar of Innisfail, president of the Hereford Breeders' Association, and Mr. Andrews, secretary, were also present.

The club leaders decided to hold the annual sale of all five clubs calves consisting of seventy head, at Munro's farm, on June 19, one mile east of Carstairs. Archie Borew will be the auctioneer.

Lunch was served to two hundred people on the spacious lawn.

Next meeting of West Didsbury Club to be held on June 4th, at Otto Krebs.

Evangelical Church Notes

"Commanded to Preach" will be the theme on Sunday, June 6th, at 10:30 a.m. Jesus commanded His disciples to tell the story of His life, death, resurrection and ascension into Heaven. He ended them with power to preach through the Holy Spirit.

The E.L.C.C. will have charge of the evening service at 7:30.

The Albright Brotherhood will meet on Monday evening, June 7, at 8:30 p.m. All men are invited to attend.

Local Air Cadets Visit Carry Field

It was a big day on Saturday for the local squadron of Air Cadets, when they made a visit to No. 3, S.F.T.S. at Currie Field, Calgary.

They arrived at the school at 10:00 a.m. sharp and marched to the ground instruction school, where they spent an hour on aircraft recognition and aerial machine gun sighting. They also inspected the Link Trainer and were shown the technique of parachute folding.

After being entertained to dinner at the mess, they were taken to the rifle range where all the boys had an opportunity to fire both machine gun and army rifle. They were taken on a tour of the airport, inspecting the control tower, hangars and aeroplanes.

At the meteorological office, they were given a lesson in weather observation and were much interested in seeing the 10:30 weather map prepared.

Perhaps the biggest thrill was the instruction in bomb sighting and the dropping of bombs in the ground practice bombing school, though they got considerable kick in watching planes take off and land.

Supper at the mess wound up a full day, which made the boys anticipate the time when they will go to camp for summer training.

Kind to Animals, Even Skunks!

Well! There is one man in this district partial to skunks. While moving a grain bin on W. A. Spooner's farm, the men discovered a nest of six baby skunks and a mama skunk. One of the men wanted to kill the lot, but not W. A. He collected them up and took them to a safe place—that is the babies—mama could easily smell them out. Just wait until those "sweet" little animals raid Mrs. W. A.'s chicken house. Oh, boy!

Didsbury Jottings

By A.C.H.

Let's all buy ourselves umbrellas, and spend the summer in comfort.

Two tractors caused a sensation at the corner of 8th ave. and first street west, Didsbury. They had their throttles wide open and their wheels spinning uselessly. They were trying to haul out of a mud hole, a huge gasoline truck, which had bruvaned quite deep. So deep, in fact, that the tractors had to give up the job. For the time being, anyway. A pipe line was built from the truck to the B.A. station and the gas drawn off. Twenty four hundred gallons; after which tractors were able to haul out the empty tank truck. It isn't true that that the north end business men engineered the whole thing, to draw the crowds down to their end of town.

Mother is having quite a time to figure out the meat problem. She has to make it stewing beef one day, and pork tenderloin a day or two later. Of course, she could splash on a grand roast for the Sunday, and give them tongue the end of the week. Tongue doesn't require any coupons. But then, it never did, and mother has been dishing it up to the family for years. Ask any husband.

E. C. Manning Chosen Premier

Hon. E. C. Manning, 34-year-old provincial secretary and minister of trade and industry in the former Aberhart government, was sworn in by Lieut.-Gov. J. C. Bowen, as premier of Alberta, after being chosen by a Social Credit caucus, to succeed the late premier William Aberhart.

Mr. Manning, who acted as deputy premier in the absence of Premier Aberhart, and was a close friend of the social credit leader, who died in Vancouver on May 23rd, had been freely mentioned as the most likely choice to succeed Mr. Aberhart.

C.G.I.T. Concert At Westcott

The C.G.I.T. concert at Westcott Friday night was a huge success, \$21.00 being the proceeds to be used for camp fund.

Everyone enjoyed the mixed programme. Much credit is due the girls and their leaders for the splendid programme. Special mention is due Dora Fawcett for being such a capable chairman.

After lunch was served, the C.G.I.T. girls requested Jack Robertson to sing some comic songs, which he did amid roars of laughter.

The play, "Woeful Under Difficulties", needs a special mention, Margaret Sinclair, as the boudoir servant, Betty Klink as the perplexed husband-to-be, Berta Mae Fawcett, the capable father, and Marguerite Fisher, Dorothy Buh, Betty Bowman and Edith Sinclair all did splendid work; at least the laughter and and applause said as much.

Weddings

HOOPER—JACKMAN

A pretty wedding was solemnized at Bingley Baptist Church, on Tuesday, May 25, when Miss Myrtle Doris Jackman, Bingley, became the bride of Henry Stuart Hooper, Didsbury, son of Mr. and Mrs. Henry Hooper. Rev. M. L. Baker performed the ceremony.

The bride, attired in a white floor-length gown, carrying a bouquet of roses, entered the church on the arm of her father, Mr. C. E. Jackman, to the strains of the wedding march. She was attended by her sister, Miss Bernice Jackman, who was attired in a yellow floor-length gown, carrying a bouquet of yellow snapdragons.

The groom was attended by Mr. Leslie Quantz, of Didsbury, while Messrs. Ian Stauffer and Chris Hedegarde acted as ushers.

At the close of the ceremony, Miss Evelyn Hooper sang, "Because". Mrs. Parkes played the wedding music.

A reception was served at the home of the bride's sister, Mrs. Ted Everenden, to about twenty guests. Mr. and Mrs. Ian Stauffer, Miss Evelyn Hooper and Mr. Chris Hedegarde served.

The happy couple then left on a short honeymoon at Banff, and on their return will reside on the groom's farm east of Didsbury.

Honor Mrs. J. M. Fawcett

On Tuesday, forty five members of the junior and senior ladies aid and ladies curling club, met at the home of Mrs. W. J. McCoy for afternoon tea, to bid farewell to Mrs. Fawcett, a willing worker, good sport and loving friend.

The guest of honor was presented with a hand bag and purse, from the ladies aid, and a bed throw from the lady curlers.

Mrs. Fawcett will be sadly missed, but our loss will be another's gain.

Consumer's Coupon Calendar

Sugar coupons
(Each good for one pound of sugar)
Dates of validity:
Nos. 7 & 8, Thursday, May 27.
Nos. 9 & 10, Thursday, June 24.
Nos. 11 & 12, " July 22.
Nos. 13, " Aug. 19.

Tea or Coffee coupons
(Each good for two ounces of tea, or eight ounces of coffee)

Nos. 7 & 8, Thursday, May 27.
Nos. 9 & 10, Thursday, June 24.
Nos. 11 & 12, " July 22.
Nos. 13, " Aug. 19.
These coupons remain valid until declared invalid.

Butter coupons
(Each good for half pound of butter)

Nos. 24 & 25, " Aug. 19.

Births

At Didsbury General Hospital

To Mr. and Mrs. H. P. Neilson, on May 23, a girl.

To Mr. and Mrs. L. Meckelborg, on May 24, a girl.

To Mr. and Mrs. Alex Kromm, on May 30, a boy.

To Mr. and Mrs. N. Weidner, May 31, a boy.

W.C.T.U. Notes

The W.C.T.U. have the pleasure to announce the following results in Science Temperance Instruction in the schools for poster work. Locally those winning first and second class standing are:

Grades 3 & 4. 1st Ronald Kelsey, 2nd Ruby Hayne, both of Jutland school.

Grades 5 & 6. 1st Donald Thompson, 2nd Arthur Coates, both of Jutland school.

Prize winners in the district were: Grades 3 & 4. 1st Gwen LeMottie, 2nd Louise Neilson, both of Olds.

Grades 5 & 6. 1st Don Thompson, 2nd Arthur Coates, both of Jutland school.

Grades 7 & 8. 1st Roy Baycroft, 2nd Betty Baycroft, both of Buffalo Creek school, Innisfail.

No Busses for Didsbury

Mr. Ady, who has been acting as agent for the Greyhound bus lines, has been notified that in future the busses will not come into Didsbury.

The bus stop for Didsbury will in future, be at Johnson Service Station on the highway.

During the spring, the bus has not been able to come into Didsbury on account of the roads, and, no doubt, it is on account of the condition of the roads between here and the highway that have caused the bus company to make this decision.

NOTICE

Owing to the prevailing shortage of labour it is impossible for the sanitation department to keep all garbage in the Town removed as promptly as they would like. Mr. Lamont has been instructed to remove garbage in the following order:

1. All garbage and refuse of a nature that might breed flies or disease germs, including empty cans. Secondly: Ashes.

Thirdly: Garden refuse, tree cuttings, grass cuttings, old papers, etc.

We would appreciate it if the public would co-operate with Mr. Lamont in the following respects:

1. Burn all refuse and garbage that can possibly be burned.

2. Keep garbage, including empty cans, separated from ashes and, as far as possible keep it in covered containers.

3. Do not pour piss in with garbage or ashes.

4. Keep all garden refuse, old stumps and grass cuttings that cannot be burned in a separate pile. Do not mix these with either garbage or ashes.

The co-operation of the public in this regard will go a long way towards helping us keep the Town clear of anything that might be dangerous to public health.

Sanitation Committee of the Town Council.

Women And The War

IT HAS BEEN REPEATEDLY stated that this is a war in which civilians are in the "front line" no less than those in the armed forces. In the countries which have been bombed by the enemy, this has already been shown to be true. In Canada civilians have not been called upon so far to meet with the horrors of war in their own homes, but in all walks of life they have shown themselves ready to give full support to a gigantic war effort. The large numbers of men who have joined the armed services, and the way in which industry has geared itself to the production of war materials have all shown the readiness of the people of this Dominion to support to the utmost the cause of the United Nations. That women have taken a full share in all that has been done is well known to most of us, but some details concerning their part in Canada's war effort reveal that their contribution is greater than is perhaps generally realized.

Much Work Done By Volunteers

In the national registration, taken in August, 1940, 2,283,370 women in Canada were listed as housewives. While some of these women have since entered war industries, the majority are still in their homes and their service in maintaining the home life of the nation and in keeping up the morale of those who are in the fighting forces or in war industries is recognized to be very great. These women, too, form a vast army of volunteer workers who contribute greatly in providing comforts for those in the services and for their families. Members of women's patriotic organizations also organize the collection of salvage, work for the promotion of better nutrition and national health, place evacuees and refugees, assist in blood donor service, and in countless other ways meet and deal effectively with the human and social side of wartime problems. Several million dollars are raised every year in Canada for war services, and voluntary women's organizations are instrumental in raising a large proportion of this money.

Men Released For Service

In 1942 it was estimated that there were 5,500 Canadian women wearing official uniforms of the armed services and 75,000 women working in munition plants. Since that time these numbers have increased. These women all release men for active service in the army, navy and air force, and their contribution to the advancement of Canada's war effort is great. A number of outstanding Canadian women are also serving in official capacities on the Wartime Prices and Trade Board and in large war industries. Canadian nurses have responded to the needs of their services in the war, and in the spring of 1942 there were 875 nursing sisters in the Army. Nursing services are also maintained in the Navy and the Air Force. It is clear that when the war is won, Canadian women may feel that they have contributed in no small way to the struggle upon which the future of the world depends.

Solves One Problem

New Jersey Farmers Employ Traveling Bookkeeper To Keep Accounts. With the growing need for more farm accounting due to new regulations increased returns, income tax, etc., the farmer is finding it harder and harder to keep up with his accounts. A group of farmers in the state of New Jersey have got round this problem handily by employing a traveling bookkeeper who, for a small fixed fee, makes a good set of farm records, files income tax returns and does other allied work, visiting his customers once a month. Family Herald and Weekly Star.

When your ambition is to get enough sleep, you are getting on in years and wisdom.

A DELIGHTFUL DESSERT MAKES THE MENU PERFECT

Canada's Householders know that custards and blanc-manges, quickly and easily made with pure, high quality Canada Corn Starch, are a delight with any luncheon or dinner menu.

At this time when Canadians are urged to "Eat Right to Feed Right", these delicious desserts will prove a welcome addition to the nutrition foods featured by the National Food for Fitness Campaign. Follow Canada's Food Rules for Health and Fitness.

Biscuits And War Jobs

Soda Crackers Are Very High In Calorie Value (By Molly O'Dale)

While few civilians on the home front are suffering hardships as a result of the war, a great upheaval has been caused in settled habits of living. At this very moment thousands of women who, in peacetime, would be engaged exclusively in their domestic duties, are now working in munitions plants or devoting a lot of their time to civilian defence, Red Cross and other wartime activities.

This leaves them much less time for cooking. Meals have to be prepared in less time so biscuits and crackers are in greater demand than ever before. The soda cracker, for instance, is a great time-saver, being a tasty and highly nutritious item of diet that needs no special preparation and goes well with soup, cheese, jam, marmalade, salads and so forth.

The remarkable thing about soda crackers is that they compress a lot of nutrition into a very small compass. This is due to the fact that they contain very little moisture. In a loaf of good bread for instance, moisture constitutes about 36% of its total weight, while there is less than 6% of moisture in a soda biscuit. This dehydration enables soda crackers to be kept without spoiling, and without any special storage facilities. Christie's soda crackers are very high in caloric value, too—they give you 106 calories for one cent which is 92 calories more for the money than you get in beef steak which averages only 17 calories for a cent. So it's no wonder that 94 homes out of a hundred use biscuits and crackers regularly.

PRIVATE PROPERTY

At a navy dance a girl noticed a sailor wearing an unusual identification bracelet. She took hold of his wrist and read the engraved warning: "Hands off! He's mine! Margaret."

The glories of Greek sculpture and architecture have survived for 25 centuries 2018

NO MORE "DOSING" MY CONSTIPATION—I'VE CORRECTED THE CAUSE!

"Regularity" is important any time, but it's vitally important in these busy war days when all of us are working harder than ever. Don't you be "dosed down" by that common type of constipation due to lack of "bulk" in your diet. And be sensible... correct the trouble right at its source instead of "dosing" with harsh purgatives that give only temporary relief.

Eat KELLOGG'S ALL-BRAN...gratifying as a cereal or in hot, crisp muffins...eat it every day...drink plenty of water...then see if you don't forget you ever had common constipation. For ALL-BRAN supplies the "bulk" your diet needs...promotes natural regularity. Your grocer has ALL-BRAN in two convenient sizes. Made by Kellogg's in London, Canada.

HEALTH LEAGUE OF CANADA

THE VIRTUES OF SIMPLICITY

In these days when everyone's time is so much occupied, and when minutes are precious, the housewife can reflect with pleasure that the simpler the meals she serves, the better they are for her family's health. The fact is that elaborate preparation of foods, especially of vegetables, causes the loss of much of their vitamin and mineral content.

Some of the menus used in the famous Boy's K Club experiment with noon meals, conducted in Toronto from February to March 1942, offer suggestions to mothers of school children. Here are three typical ones:

Baked Potatoes - Cheese Wedges of Raw Cabbage	Baked Lima Beans (dried) with Tomato Sauce	Toasted Cheese Sandwiches on Whole Wheat Bread
Tomato Juice	Buttered Whole Wheat Bread	Raw Turnip Sticks
Cocoa	Milk	Orange
Cod Liver Oil	Cod Liver Oil	Cod Liver Oil

Simple aren't they? Yet each of these meals gave every boy all or nearly all of his day's requirements in the protective food elements, the vitamins and minerals, and more than 15 of his caloric needs for the day. All this at an average cost of less than 16 cents per meal! And before you say, "But they won't eat brown bread or raw vegetables," please remember that the thirty K club boys, who were just ordinary boys like any others, did eat them without protest and enjoyed them. You may have to do a sales job but it can be done because it has been done. And it's well worth doing.

A post card request to the Western Division Health League of Canada, 111 Avenue Road, Toronto, will bring you a free copy of its authoritative Vitamin Chart.

USING HUGE LATHE

An enormous lathe, the largest machine tool in South Africa, has been installed at the Iscor steel works, Pretoria, to enable important ship repair work to be carried out, such as heavy job of turning large propeller shafts for ships.

Buy War Savings Certificates

DIRTY WORK

A Bremen newspaper says that German women helping in the war are not expected to do any dirty work. Reasonable enough. What is the Gestapo for?

Nazis have ordered farmers in Slovakia to cultivate rapeseed to be used for oil.

Canada Holds Key Position For Direct Air Routes To Markets Of Europe And Asia

CANADIANS can contemplate the post-war air with a confidence based upon a bountiful geography and direct routes to the rich markets of Europe and Asia, says an article on "Canada's Postwar Air Policy" in the current issue of the magazine "Fortune."

"Canadians see that at the present working ranges of transport aircraft," the article says, "the most economical routes between North America and Europe and Asia traverse Canadian territory or British possessions (Newfoundland and Labrador) adjacent to it. And for the future there are, of course, the much discussed great circle courses over the north-polar regions to Europe and Asia. If and when these routes materialize, Winnipeg, as an approximate geographical centre of the U.S. and Canada, conceivably will become one of the great ports of international air trade."

"Canada is sitting pretty in other respects," the article continues. "The war has fostered a tremendous expansion in Canada's postwar potential, especially in terms of aircraft repair shops, communications and other ground facilities. In particular two new systems aimed toward Europe and Asia have been built. One in the northwest staging route, from the U.S. frontier to Alaska, which roughly parallels the Alaskan Highway. The other is the northeast staging route, toward Britain and Europe, which opens a great-circle shortest-distance channel between the war industries of the western U.S. and Britain."

"The fact that the British Commonwealth air training plan is housed on Canadian soil has whipped up interest in aviation," the article goes on. "The war's end will find some 250,000 Canadians trained in aviation skills not including aircraft industry workers—from pilots down to mechanics. For a nation of less than 11,500,000 people this is a big pool to draw upon."

After reviewing the across-the-border channels, of which five of six are exclusively U.S. operations, and the plan that Trans-Canada Airlines should monopolize international and other main line domestic routes, the article reports that TCA seeks three desirable routes across the North Atlantic to Europe, through the Yukon to Alaska and beyond to Asia, and across the Pacific from Vancouver to the Orient. In addition, it says, Canadians would like to operate their own service to Bermuda and Nassau.

"To satisfy Canada's aspirations," the article concludes, "means admitting her airplanes into Alaska and Hawaii, which have always been 'closed sky.' It would mean equipping Canada with long-range equipment—at least to tide her over the conversion period and working out with the British some reasonable allocation of the North Atlantic and Pacific trade. But for the right to operate through Canada's air, and perhaps to set up some kind of defenses along her vast open sub-polar frontier this does not seem an excessive price—not for Americans with a sense of preparation."

Tied The Score

Good Story About Late Lord Shaughnessy And Senator Pat Burns

When railroaders get together, says W. L. Clark in the Windsor Star, they tell a good story about the late Lord Shaughnessy and the late Senator Pat Burns.

There was a dinner in Vancouver at which many prominent business men were present. Lord Shaughnessy, as head of the Canadian Pacific, made a speech. He jokingly referred to the menu saying there was lamb for dinner, but he was sure it was mutton.

Pat Burns was called on later. The packer had noted Lord Shaughnessy's remarks about the mutton. He explained that when the animal had left Calgary it was lamb, and it was the fault of the baron's railroad, if it had become sheep by the time it reached Vancouver.

That made the score a tie for the evening.

Maintain Reputation

Canadian Fighter Pilot in Malta Keep Up Good Work

The reputation of the Canadian fighter-pilot in Malta, which boomed while P.O. George Bourling, Vedrun, Que., was there, is being maintained capably, if less spectacularly, on this historic bit of rock by as competent and typical bunch of lads as ever wore wings on their chests and "Canada" on their shoulders.

Two squadrons to which the Vedrun ace belonged while he was making his fame here still bask in the glory of his name, and on both the R.C.A.F. is well and creditably represented. One, until recently commanded by Sqn. Ldr. Malcolm MacLeod of Picton, N.S., now missing, is led by one of the American squadron commanders still in the R.A.F., Sqn. Ldr. John Lynch of Tulsa, who in peacetime taught civilians to fly at Alhambra, Calif.

Another R.C.A.F. veteran of both Britain and Malta, is Cyril Gosling, 22-year-old former employee of the Saskatchewan power commission, whose home is in North Battleford.

Gosling got his baptism of fire at Dieppe, and incidentally showed the stuff that has since carried him through 100 hours of operations. Hit in the leg by machine-gun fire, he had the chunk of metal removed by the medical officer and was back in action in half an hour.

Out here, he's been over Sicily so many times and on so many targets that he knows the island like a book. On two or more recent "do's" he hit a marshalling yard at Syracuse and destroyed a floating seaplane off the Sicilian coast.

Also from the west is another Canadian who took part in the recent bombing attack. Sgt. Pilot George Albert Hardy of Davidson, Sask., a former grain buyer with 40 hours of "ops" behind him here and in Britain. Altogether Hardy has been on 22 sweeps and has been in a number of scraps.

These are only a few of the fighter lads from Canada who throng the crew-rooms of Malta. In their skill with "the stick" and the firing button, their courage in combat and their cheerful acceptance of the hardships of service life here they are typical of the hundreds of other Canadians who have passed this way before them.

New Post

Major-General J. P. Mackenzie, D.S.O., 58, of Vancouver, B.C., who has been appointed inspector-general for western Canada, succeeding Major-Gen. the Hon. W. A. Giesbach. General Mackenzie served overseas for two years in this war and for the past year has been quartermaster-general at N.D.H.Q.

Animal By-Products

Are Used in Manufacture of Many Useful Articles

Musicians in Canada and the United States need have no fear of a shortage of strings for musical instruments. Prior to the war of 1914-18, strings for musical instruments were imported from Germany and Italy, particularly from the latter country, but since that time North America has manufactured sufficient to take care of her own needs. This has been brought about by the great advance in the processing of animal by-products produced in plants under Government inspection. In Canada, the inspection of meats, of meat by-products, and of other by-products to be used in manufacture, is carried out by the Health of Animals Division, Dominion Department of Agriculture.

Although the main by-product of sheep and lambs is the pelts used for bookbindings, gloves, purses, and numerous other articles, the small intestine is valuable. A percentage of the intestines go into the manufacture of sutures, violin strings, and other stringed instruments, while the bulk of the casings forms ideal containers for best quality sausage.

The by-products of swine are varied and important. The bristles on the back are used in the manufacture of brushes. The small intestines are valuable as containers for sausages but not so useful as lamb's casings, because the pig's intestines make a wider and larger sausage which is not so acceptable to the trade. The pyloric portion of the pig's stomach is striped and used as a source of pepsin. As in the case of cattle, the glands are saved for medicinal purposes. The skin of the pig makes gelatin; the feet are cured and put up in casks with bay leaves, and pig tails find a ready market as food in the British West Indies.

Figures Show The Help Given By Britain And The Empire In Supplying Russia With Needs

REMARKABLE figures showing the extent of the help of Britain and the Empire in supplying Russia with essential requirements were given by an official of the United Kingdom Commercial Corporation, a trading organization backed by the British Government. Non-military supplies placed through the corporation already exceed £50,000,000 (\$225,000,000) in value and represent hundreds of thousands of tons of merchandise of all kinds.

Salvaged Scraps Make Fruit Motifs

by Alice Brooks

They look good enough to eat—these wonderful fruits that "grow" right out of your scrap-bag! What a delightful way to use up small print remnants. There are cherries, pears, apples and all your favorites to applique on towels with simple outline stitch. Pattern 7458 contains applique pattern pieces of six motifs averaging 4 1/2 x 5 inches; directions. To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermott Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number. Because of the slowness of the mail delivery of our patterns may take a few days longer than usual.

COULD PROVE IT

A young housewife asked a Kansas City grocer for a peck of seed potatoes. An hour later she returned with a platter of them—all neatly sliced. "You've made a mistake," she complained. "I've cut all of these potatoes open and there's not a seed in any of them."

Welcomed To Britain

Squadron Officer Kathleen O. Walker (right), Ottawa, first member of the Women's Division of the Royal Canadian Air Force, is welcomed by Section Officer Nancy McArthur (left), of Calgary, on her arrival in Britain to command the women of the Canadian Bomber Group. In the centre is Section Officer Frances A. Service, of Toronto, who was also in the latest and largest contingent of W.D.s to arrive in Britain.

The spokesman explained that within a fortnight of Germany's invasion of Russia the corporation had become purchasing agent for Soviet orders placed through this country all over the world.

The list of goods supplied ranges from the smallest of food to large, self-appointed electric power generating units to replace those destroyed in areas devastated by the Germans or to supplement existing plants, raw materials from aluminum to zinc, and foodstuffs such as wheat or tea. Vast quantities of rubber and some 20,000 tons of tin have been despatched, and consignments are still going forward.

"Rubber is now being shipped in thousands of tons from Ceylon," the official said. "Cornwall is providing tin in substantial quantities, and to meet an urgent request for industrial diamonds for Soviet war factories the corporation sent supplies by air to Moscow."

"The corporation draws on the varied resources of the Empire and other territories of the sterling area to meet the Russian requirements. Wool is obtained from Australia, New Zealand, Syria, Iraq and Persia, metals like copper and zinc, ferrochrome and ferro-silicon from Canada, hospital beds and canvas from Palestine, mohair and tanning materials from Turkey, sisal and coffee from East Africa, and tea and rubber from Ceylon."

India, where the corporation has set up its main offices, is a major source for the supply of large numbers of goods for Russia. Jute, ground nuts, tea, hides, shellac and tobacco are among the commodities now being supplied from India, together with a variety of manufactures ranging from cotton yarn to fire hose. One recent order alone was for 11,000,000 gunny sacks, and total runs well in excess of 45,000 tons.

Goods are shipped to Karachi, and from there are sent by the overland route to the U.S.S.R. The corporation has been entrusted with the operation of the route between Nakhikundi and Zaidah, together with its road connection via Moshed to the Russian east Caspian railway.

The U.K.C.C. is also responsible for the elaborate road haulage system built up in Persia by which Anglo-American aid for Russia is transported from the Persian Gulf to the Caspian sea. This task was assigned to the corporation within a fortnight or so of the outbreak of hostilities on the eastern front, when it was realized that Persia offered a relatively safe highway for supplies to Russia, to supplement traffic via the northern ports and Vladivostok.

Medal For Mountie

Veteran Made West-To-East Voyage Through Northwest Passage

The history-making west-to-east voyage through the northwest passage of the motorship St. Roche was marked at government houses, Victoria, when the Earl of Athlone presented the Polar Medal to Constable W. J. Barry, veteran of 29 years' service with the Royal Canadian Mounted Police who made the trip across the top of the world.

The citation recalled the departure of the St. Roche from Vancouver in June, 1940 with supplies for Arctic detachments of the R.C.M.P. The vessel was frozen in at Paisley Bay, about 40 miles north of the north magnetic pole, for 11 months and then sailed through the northwest passage, reaching Halifax in October, 1942. It was the first vessel ever to complete the passage from west to east.

In wood experiments for aircraft the Australian Council of Scientific Research has made 250,000 mechanical tests.

Lone Pine Notes

The Burnside Junior Red Cross are having a concert and dance at Burnside School, on June 18. Good music and a good time. Come and help a good cause, and at the same time please the "Juniors".

Mr. and Mrs. Otto Faas spent Sunday afternoon at Otto Bitner's.

Mrs. Georgina Millar moved into

Didebury on Friday, and the Lachman family have moved onto her farm here.

Miss Helen Braithwaite of Calgary, spent a past week with Miss Ruth Thoman.

The annual meeting of the Hal board will be held June 11, at 9:00

p m. This meeting has been postponed since February, owing to road and weather conditions.

**Silk Stockings
For the W. D.'s!**

Great joy reigned throughout the R.C.A.F., (Women's Division) when orders were received giving the girls permission to wear silk stockings after duty hours.

This, together with the smart new hats, and neat blue purses now on hand to be issued, will certainly make the W.D. the smartest girl in uniform.

New uniforms of cool khaki worsted are to be issued in the near future, for wear during the hot summer days.

Any girl who is smartly dressed in civilian life need have no hesitation in stepping out in the smart uniform of the W. D.

Out of the thousands of ships conveyed by the Royal Navy, less than one out of 200 has been lost. The Royal Navy has sunk or captured more than 8 000 000 tons of enemy merchant shipping.

Pilots of an R.A.F. "Spitfire" squadron operating from Tripolitania. These pilots, photographed in Tripoli, come from Australia, Canada and New Zealand. They are, left to right, PO. Small, from Gyra, New South Wales; Sgt. Anderson, from Dawson Creek, B.C.; Flt.-Sgt. Fee, of Fenwick, Ont.; and Sgt. Allington, of New Zealand.

Notice to Certain Employers and Employees

that men in specified lines of civilian employment, in classes already designated under National Selective Service Mobilization Regulations, must report for interview not later than June 15th, 1943, at an Employment and Selective Service Office.

A. Objective: This Second Order makes available for essential employments the services of men in classes already designated under National Selective Service Mobilization Regulations, who are now employed in specified non-essential employments:

widower since July 15, 1940, and is without child or children now living; (d) every man born from 1902 to 1916 (inclusive) who, since July 15, 1940, has been divorced or judicially separated.

J. Authority: This Order is issued by the Minister of Labour under National Selective Service (Civilian Regulations) (P.C. 246) of January 19th, 1945, and amending Orders in Council.

B. EMPLOYMENTS COVERED BY THIS ORDER: Men, of the specified categories, are covered if now employed at:

K. This Second Order is Additional to First Order: Employments listed in Paragraph B above, declared non-essential in this Second Order, are additional to the non-

(1) occupation in or associated with retail stores; (2) any occupation in or associated with the manufacturing of fashions, fumes and artificial flowers; chewing gum; wine; lace goods; greeting cards; jewelry; (3) any occupation in or associated with distilling alcohol for beverage; (4) any occupation in or associated with the factory production of

essential employments contained in the First Order. The First Order, issued on May 4th, 1943, required compliance by May 17th on the part of employers designated under Mobilization Regulations, and also of their employees, in the following lines of work:—

(1) *twenty or fewer, wine and beer stores*

C. AGE AND MARITAL CLASSES OF

(2) retail sale of candy, confectionery, tobacco, books, stationery, news; (3) bulk shops and beauty parlours; (4) retail and wholesale florists; (5) service stations (gasoline-filling stations); (6) retail sale of motor vehicles or accessories; (7) retail sale of sporting goods or musical instruments; (8) waiter, taxi driver, elevator operator, hotel bell boy, domestic servant; (9) any occupation not otherwise specified in this section.

II. Appeals: If objecting to transfer to other employment when directed, a man may enter appeal with a Court of Referees within 7 days.

I. Penalties: Penalties are provided for either employer or employees failing to comply with this Order.

tion in or directly associated with entertainment, including but not restricted to theatres, film agencies, motion picture companies, clubs, bowling alleys, pool rooms; (40) any occupation in or directly associated with dyeing, cleaning, and pressing (not including laundry work), but; guide service; show

Save Alberta Forests

This is the time of the year when the forests of Alberta are in their gravest danger. It is Spring time. The leaves have barely started to come out and the wealth of green has yet to appear. With a few days of heat the forests will be a veritable fire-trap.

This year is different to any other. It is more difficult than any other. Help of any kind becomes increasingly difficult to secure. Active Service and war industries have absorbed the bulk of all available labour. If the tragedy of fire should come now, little could be done to halt it.

The problem of fire danger can only be solved this year by the people themselves. It can only be solved by fire prevention—and fire prevention means simply the exercise of thoughtfulness and consideration—the employment of simple, ordinary, common sense.

One small act of carelessness, of criminal carelessness, carelessness such as the throwing away of a cigarette butt where it might ignite the undergrowth, of leaving a camp-fire in a forest area not properly put out, of illegal burning without necessary precautions being taken, for the purpose of clearing land—any one of these, or similar acts, may cause a fire which can quite easily destroy human life, animal life, homes and equipment, and hundred acres of square miles of beautiful full grown trees, which may take a century of time to grow again. Following such devastation comes the drying up of rivers and lakes. This lack of moisture in turn affects stock, grazing and farm produce, creates insanitary conditions in community life, leading to sickness and disease—and one solitary human being can have caused it all.

Who is responsible? Everyone is responsible. Everyone of either sex and of all ages. Children, as much as the aged, must carry the responsibility and must see that whatever else happens, the fires this year must never be allowed to start.

Over ninety-five percent of all forest fires are caused by man. They are caused either by criminal carelessness or by deliberate incendiarism to create fire-fighting jobs. With reference to the latter, whenever such offenders are caught, the punishment meted out is swift and as severe as the law will permit.

The annual appeal for fire prevention is more insistent this year than it has ever been before. If the fires come, the country must burn and be laid waste. They must not be allowed to come.

Watch where the cigarette butt is thrown—better still, stamp on it till it is really out. Watch over the camp fires till the last spark has gone before they are left alone. Keep within the law when clearing land, and if a burning permit is secured see that every regulation is strictly lived up to. Be careful of slash when working in the bush. Pile it carefully and, if it is safe to do so, burn it. Do not leave it to lie in the forest as a live fuse for future fires. In operating a sawmill, see that such operation in no possible way creates a fire menace. These are some of the simple things, under the headings of consideration and common sense, the exercise of which costs so little and can effect and save so much.

Alberta's forests have to conserve moisture, not only for this province, but for all of Western Canada.

Alberta fire prevention in 1943 is a major war effort. Without it, all other war efforts may be sacrificed. To carry it out properly requires but a minimum of effort—simple actions following simple thoughts. This year it must be done.

This year in Alberta there must be no fires. That is the order, dictated by public conscience. It is an order which must definitely be obeyed.

No Ration On Hot Dogs

Hot Dogs, delectable tidbits offered at fairs, hikes and picnics aren't on the ration list, coming under the category of cooked sausages or wieners. Other exemptions from meat rationing regulations, effective May 27, include fish and fowl, bologna, cooked meat loaves, liver, tongue, sweetbreads, heart, kidney, tripe brains and tail.

Out of the FRYING PAN and into the FIRING LINE

Save ALL WASTE fats & bones

Canada needs and must have every spoonful of fat dripping, every piece of scrap fat and every bone from every kitchen in Canada. Fats make glycerine and glycerine makes high explosives. Bones produce fat. Also give for war industry.

Don't throw away a single drop of used fat—bacon grease, meat drippings, frying fat—every kind you use. They are urgently needed to win this war.

Strain all drippings through an ordinary strainer into a clean wide-mouthed can. Save your scrap fat (cooked or uncooked) and all types of bones—cooked, uncooked or dry.

When you have collected a pound or more of fat dripping, take it to your meat dealer who will pay you the established price for the dripping and the scrap fat. Or you can dispose of them through any Municipal or Salvage Committee collection system IN EFFECT in your community.

Be a munition maker right in your own kitchen. For instance, there is enough explosive power hidden in ten pounds of fat to fire 49 anti-aircraft shells. So—every day, this easy way, keep working for Victory for the duration of the war.

DEPARTMENT OF NATIONAL WAR SERVICES
NATIONAL SALVAGE DIVISION

There goes your letter to your boy...

INIT, you put it in the home-spun bits of chit-chat you know he wants to hear... and in it you also put your heart. You mailed it with a prayer that it might find him safe and well.

Look—it's already on the way... speeding as fast as railway wheels can carry it.

Those singing wheels carry more—much more—than letters. They carry food for your pantry, coal for your furnace. They roll tirelessly that you may live in comfort. They race across the great stretches of this Dominion with the men and materials of war, so that all of us may live in freedom.

Twenty-four hours a day our railway wheels are rolling, driven by an army of over 150,000 workers serving two major fronts... the home front and the fighting front.

"Keep 'em rolling" is their watchword, whether it's food or fuel, tanks or troops.

Or just your letter to your boy...

WORLD HAPPENINGS BRIEFLY TOLD

The Moscow radio announces that Colonel Zigmund Berling has been put in command of a new Polish division to fight with the Red army.

Plans are underway to stagger school holidays in England and Wales this year so that more than 250,000 boys will be available to help with the harvest.

The great moving mast at Cardington, Bedfordshire, to which the greatest airships were anchored is to be dismantled and its scrap turned over to munition factories.

It has been announced that Prime Minister Simms may visit North America after the South African general election which will be held this year, probably in August.

The Canadian Army in Canada now has its own newspaper. Titled "Khaki" it is published every Wednesday and is distributed free to the personnel of the army. The paper is prepared at Ottawa.

A British army cameraman captured eight Germans with his camera. As he raised the instrument to his eye the Nazis thought he had some sort of new weapon and came out from a bush with their hands raised.

George Kruger-Gray, 62, outstanding painter and designer, whose work included the design of the great seal of King George VI, died recently. He also designed the great seal of Canada. Nova Scotia's official seal and emblems for the Dominions.

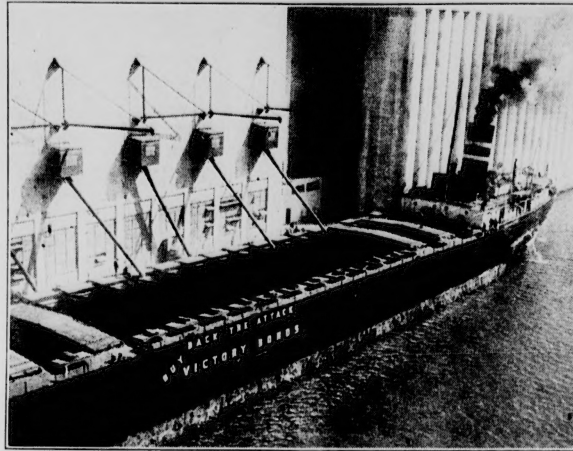

Moscow radio, reported by CBR, reported that French Premier Pierre Laval had "signed an agreement" for annexation by Italy of Nice, Savoy and Corsica after the war. The Moscow report quoted "Stockholm reports."

INFORMAL

Italians are so sick of the Nazis that they are not only about ready to invite us in but to tell us that our invasion dress may be optional.

Cubes of sugar are used for money by certain isolated tribes in Colombia.

Lake Steamers Busy Carrying Grain

The big lake steamer "Mathewson", of Colonial Steamships Ltd., carried the fourth Victory Loan slogan in big white letters on her hull when she loaded grain at Fort William as navigation got away to a late start on the Great Lakes after one of the longest, coldest winters on record. Ships like the "Mathewson", and smaller ones painted battleship grey and mounting deck guns for the trans-Atlantic run, are busy at Canada's lakehead ports these days, loading foodstuffs. A fleet of 17 ships loaded with 6,554,000 bushels of grain, and four loaded with 8,850 tons of flour wintered at the lakehead and were first to head south, making way for an incoming fleet of steamers to clean up the balance of the ports' 142,000,000-bushel storage capacity.

A Nervy Soldier

Strode Through Heavy Fire With Tray Of Grenades

A small body of parachutists serving as infantry with the British First Army recently found itself in desperate straits — surrounded by the enemy and on the point of being wiped out.

A private in the battalion strode out with a tray of grenades and walked calmly through the storm of fire from one to another of the slit trenches in which his comrades were crouched, shouting about the dim: "Cigarettes, chocolates?"

Got The Appointment

Office-Seeker Explained Why He Should Go To Panama

When John Q. Carlisle was appointed Secretary of the Treasury in the cabinet of Grover Cleveland, his old enemy, Dick Wintersmith, promptly asked him for a job. He wanted to go to Alaska.

Carlisle said he would consider the matter, and a few days later sent Dick a fine walking-stick. It was handsome and valuable, but it had no crook on it.

A few days later Wintersmith called on Carlisle and said, "John, that's a fine cane you gave me, but I'll lose it sure. I can't hook it over the railing of the bar, and I'll sure forget it some day."

"That's so," replied Carlisle, "and the way to keep it is to stop drinking."

Returning again a few days later, Wintersmith said, "John, I have changed my mind. I don't want to go to Alaska. I want to be consul in Panama."

"Why?" asked the Secretary of the Treasury.

"Well," said Wintersmith, "I've found that down there you sit at a table when you take a drink, and I can put the cane on the table where I can see it all the time and I won't lose it."

He got the job. Wall Street Journal, U.S.A.

Wrote Too Soon

Soldier's Letter To His Wife Led To Complications

Private John R. Mohr received a letter from his wife, in which she said, "Honey, I'm sending along a box of cookies I made for you." Private Mohr waited a few days, then a week, for the cookies. Then, still cookieless, he wrote his wife and told her how delicious the cookies were. "They'll be here any day," he figured. Fourteen days later, the wife wrote Private Mohr, explained the cookies had never been sent out . . . and who, VITO also, is sending you cookies?" Camp Howie (TOMAS) Blade.

Not High Enough

American Lady Just Thought She Saw Africa From Air

An American lady, in a flight over Brazil at 20,000 feet, declared she saw Africa, 1,822 miles away. She may have thought she did, but her statement has brought out the mathematicians, square-rooting the altitude and giving the exact distance one can see, after allowing for the curvature of the earth. The Minneapolis Journal produces a table which is said to be approximately correct:

At 1,000 feet you can see 39 miles.
At 2,000 feet: 55 miles
At 3,000 feet: 62 miles
At 4,000 feet: 77 miles
At 5,000 feet: 82 miles
At 10,000 feet: 123 miles
At 15,000 feet: 150 miles
At 20,000 feet: 173 miles
At 25,000 feet: 194 miles

Such is the visibility on a clear day with powerful binoculars. And the table must be important for the airmen hunting down U-boats in the Atlantic. What about night visibility? When fliers have returned and told of seeing fires in German cities 100 miles away their reports have been trustworthy, as a mere matter of mathematics. At 20,000 feet, a big fire would be visible easily at 170 miles. But the American lady in Brazil would have had to be 38½ miles in the air to have seen Africa in day time. —St. Catharines Standard.

APPROPRIATE

A man who had made his fortune in the liquor traffic built himself an imposing home out of his profits. He wanted a name for the new mansion, and consulted a friend about it. "I want a fancy name," he explained, "some hall or other, you know."

"Something appropriate, I suppose," remarked the friend. "Why not call it Alca Hall?"

The temperature in the Sahara desert is often 130 degrees at mid-day, and near freezing at night.

All military officers of England must know how to ride a motorcycle.

A Smart Two-Piecer

Two-piece styles are more popular than ever this season—and Pattern 4358 by Anne Adams is outstandingly smart and becoming. The simple skirt is well-cut. The attractive blouse has an inset belt. Side-front sections, sleeves, and back may be in contrast.

Pattern 4358 is available only in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42. Size 16 takes 3½ yards 35-inch. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

A PITY

"Hitler's Line Dramatically Shortened," says a heading. A pity this didn't happen to his ancestors.

In 1942 on the Canadian west coast whaling grounds 161 whales were caught.

Pattern For Disaster

BY J. B. RYAN

CHAPTER III.

MORGAN'S room was on the fifth floor. In keeping with his apparent intention of telling a nap, the American had let the elevator operator see him return to his room. But as soon as the coast was clear, Morgan was climbing the stairway to the sixth floor. Verde would be busy for some time developing the fingerprints on the switched glass, and this would be an excellent opportunity to search the little man's baggage.

Not even the owners of the Casa Grande knew that one of the guests carried keys that could open any door from top to bottom of the edifice. Those keys had been obtained for Morgan by Capt. Rojas of the Buenos Aires Police Department, the only man in the city who knew why Chris Morgan had come to Argentina.

Morgan had searched Verde's room three days before, when it had been occupied by a Chilean couple since checked out, and it had been little time to go over the room once again. There was nothing but a small suitcase, supposed to Verde's claim that he was in Buenos Aires only for a short visit. There was a letter, however, that established him as a cattleman, owner of a ranch near Santa Rosa.

The American descended to the fourth floor. The rooms of Guillermo and Col. Velasquez, in one of which he must have left the fingerprint that had aroused suspicion, he was impatient to examine again.

OF COURSE, Guillermo's presence in the dining room might have been chance. The musician was something of a recluse, seldom speaking to anyone; he had exchanged no words with Verde since the arrival of the cattleman. Nor, for that matter, had Col. Miguel Velasquez y Cuyas. Morgan hoped that the man he had

come to find would not prove to be Velasquez. In spite of their exchange of brusque words, the American liked the looks of the erect, dark-eyed soldier.

To enter the room of Col. Velasquez was out of the question for some hours at least. Morgan had seen the Argentinean army officer in the lobby, had seen him enter the elevator. Perhaps, if Velasquez should find this evening with that slow-eyed beauty, Rosita, Morgan had observed the couple together on several occasions—the American would be able to steal undisturbed into the soldier's quarters.

Was Guillermo in his suite? If Don Felix was helping Verde photograph the fingerprints, the operation might be taking place in the room of the bespectacled musician. Morgan tapped on the door and listened prepared to dart down the corridor toward the stairway if he heard any sound within.

But his knock produced only silence. Morgan inserted a key in the lock, opened the door and stole into the room. As he closed the door he heard a sort of shout or cry from the hall as though someone had sighted him. The sound of rapid footsteps strengthened the idea, but the footfalls went past the door, rounded the corner of the passage and hurried on.

Morgan approached a desk set close to the double-windowed wall of the room. It must have been on the polished surface that he had left the imprint of a thumb or finger. He stopped to be more careful this time. He draped a handkerchief over his hand before he touched the handle of the topmost drawer.

He LIFTED a handful of papers and spread them on the desk, and at that moment a voice inquired, "You are seeking something, senior?"

Morgan tried not to look up too quickly. The door leading into the bathroom, closed when he had tipped toward the desk, was open now, and in the doorway stood the tall, slightly stooped figure of Felix Guillermo.

"You seek something, senior?"

"Don Felix!" Morgan exclaimed, and grinned ruefully as he stared around in apparent astonishment. "I seem to be in the wrong room."

"Si, senior," agreed Guillermo, taking a slow step forward, "but it seems. The wrong room?" The aged musician was wearing a dressing-gown and his hands were in the pockets of the garment.

"Pray excuse my intrusion, Senior Guillermo," said Morgan. "I thought this was the fifth floor and mistook your room for mine."

The American turned toward the door. Guillermo said, "Remain where you are, Senior Morgan. The musician's use of his name was Morgan's first indication that this man who seemed to notice no one was aware of Morgan's identity.

"Do you open your own desk with cloth-covered fingers?" asked Guillermo. "Do you walk soundlessly across your own floor?" He stepped to the small table in the corner of the room and, without taking his eyes from Morgan, lifted the handset phone from its cradle.

"Don Felix!" protested Morgan.

"Do not move, senior!" Guillermo's other hand came out of the dressing-gown pocket holding a square black steel pipe. "I can shoot you for the thief you seem to be—Hello? There is a thief in my room. I—what's that?"

Don Felix listened, then replaced the phone carefully. Behind the lenses of his spectacles his myopic eyes blinked uncertainly at Chris Morgan. "It appears, senior," he said, "that you are a thief, but I did not think you were a murderer also."

"Murderer?" Morgan repeated sharply. "What do you mean?"

"COL. MIGUEL Velasquez y Cuyas has just been found in his room—stabbed to death. That was the cause of the commotion we heard in the hall."

There was a long moment of silence during which Chris Morgan stared unbelievably at the guest who was holding the pistol with a steady hand. "What—Morgan had to moisten lips that were suddenly dry."

"What makes you think I killed him?"

The stooped shoulders shrugged. "The conclusion is obvious. If you broke into my room, you would also

enter that of Col. Velasquez. I presume the colonel surprised you even as I did. If I did not have this gun you would probably kill me as well—"

"That's not true," interrupted Morgan. "I am no murderer."

Again Guillermo gestured with his shoulders. "I am not accusing you, senior. As soon as I mentioned that I had captured a prowler, the desk clerk informed me that it must be the killer of Col. Velasquez and asked that I hold you."

The door behind Morgan opened with a force that slammed it shut. The wall and two men entered with drawn guns. One of the men Morgan recognized as his friend, Police Captain Rojas.

"This is the man, senior?" Don Felix lowered his own pistol and stepped back, relinquishing the situation to the proper authorities. Capt. Rojas eyed Morgan, and was unable to conceal his bewilderment. "But—Don Felix! This is Senior Morgan, the American!"

Guillermo smiled coldly, and the grimace gave his parchment-tight face a satanic cast. "Then why did he hide in my room?"

Morgan glanced at the musician. Guillermo had not mentioned that he had caught Morgan rifling his desk.

THE hall was crowded when Morgan and Rojas, followed by Guillermo and the second policeman, reached the room of Col. Velasquez. The colonel, clad in the uniform of the army of Argentina, was sprawled on the floor beside a table and an overturned chair. A knife was buried to the hilt between the shoulder blades of the dead soldier. Beside the corpse stood a doctor.

At one side of the room was a third police official questioning Senior De Nova and the youth who ran the elevator. Captain Rojas immediately joined his colleague. Morgan noted that a greasy rag, which his attention was focused on the table where, obviously, Colonel Velasquez had been seated when stabbed.

There was a second chair, pushed back slightly, and on the table was a siphon and a bottle of whisky. What must have been Velasquez's glass was lying on its side as though knocked over when the soldier had received his death blow. But there was another glass, so familiar that a slight shock coursed through Chris Morgan.

The second glass was half-filled, and faintly dull as though it had been cleaned with a greasy rag—the same glass, apparently, into which Morgan had poured his own unfinished drink.

Morgan's eyes roved over the room. On a divan Rosita Velasquez was being comforted by an elderly woman; the doctor had joined the group about Captain Rojas; but Senior Ray-

mundo Verde was conspicuous by his absence. Felix Guillermo, his face expressionless, was watching Morgan.

The American's gaze returned to the table. He had guessed wrong concerning the reason Verde and De Nova had desired his fingerprints. That glass had been placed in his room as evidence that Morgan was the killer of Velasquez.

Had the plot been built up since Morgan had bumped into Velasquez and knocked Rosita off her feet?

Capt. Rojas touched Morgan's arm. "Is this the man who was with Col. Velasquez?" he inquired of the elevator boy.

The youth hesitated and studied the American most carefully. "I would not say, Senior el Capitán," he said. "He is tall, six feet, the man I saw, with the same brown hair and gray eyes, but—"

"It was he—it was Senior Morgan."

Tobacco Parcels to PRISONERS OF WAR

POST FREE

All communications with prisoners of war (no matter in what country they may be held) are under the supervision of the International Red Cross. Any parcels sent to prisoners of war, go through this organization and NO POSTAGE IS REQUIRED. This means that you can send

300 CIGARETTES FOR 76¢

to any prisoner of war. You may send any one of the following brands for this price:

"BRITISH CONSOLS," "LEGION," "SCOTCH BLENDS," "EXPORT" or "MACDONALD'S MENTHOL"

or if you wish, one pound of tobacco—BRIER SMOKING or any MACDONALD'S CIGARETTE TOBACCO (with papers) also DAILY MAIL cigarette tobacco.

1,000 cigarettes—any one of the above brands—may be sent under the same conditions for \$1.90

When sending in your order, please be sure to give the following information: Regimental number, prisoner of war number, rank and name, camp and also the name and address of sender.

Remittance must be made by postal note or money order and sent to:

PRISONERS OF WAR DEPARTMENT

W. C. MACDONALD INC.

P. O. Box 1929, Place d'Armes, Montreal, Canada

The sleek faced De Nova was less reluctant to give positive identification. "We happened to be short-handed downstairs this afternoon and it was I, who am interested only in the welfare of my guests, who carried into this room the liquor, soda and glasses ordered by the colonel. The colonel's guest was standing at the window. His back was turned as though he did not wish me to see his face. But I am certain the man was Senior Morgan."

Next Chapter: Morgan wins the first round but is taken by surprise in the second.

Result Might Be Tragic

Inflammable Article In Parcel May Cause Fire At Sea

Fire at sea! This is the fear of all those "who go down to the sea in ships." If parcels containing inflammable substances are sent overseas this may be the tragic result.

Heat is generated in parts of ships' holds when the hatches are closed. Merchant ships are now armed with fire extinguishers and ammunition on board may cause a serious explosion.

Postal authorities point out that it is contrary to law to send matches, lighter fluid, or any inflammable substance through the mails. By doing this Canada's war effort may be impaired, and the lives of postal and railway employees, as well as the lives of those on ships, are endangered. 2516

Improve Your Health by Correcting Sluggish KIDNEYS

This Way is Swift, Economical

Few conditions can wreck your health faster than disordered kidneys and inflamed bladder. Your back aches miserably. You have restless nights. You suffer leg cramps and stomach pains. When these things happen your kidneys need help in filtering out acids and poisonous wastes that are undermining your health. Give them this help—quickly—with GOLD MEDAL Haemolite Oil Capsules. GOLD MEDAL Capsules capitate accurately measured droplets of the original and genuine Haemolite Oil (Dutch origin). You will be so surprised at the way they relieve clogged kidneys and strained muscles. Use one to your dropper now and get a 40¢ box. Be sure you ask for GOLD MEDAL Haemolite Oil Capsules. 3

"MIDDLE-AGE" WOMEN (35-52)

NEED THIS ADVICE!! If you're cross, restless, NERVOUS, or feel hot flashes, or are bothered by this period in a woman's life—PINKETTES are the answer. Compound. Made especially for women. PINKETTES are the only laxative that is so gentle and so effective. PINKETTES are made in Canada.

DEDICATED TO QUALITY FOOD PRODUCTION FOR VICTORY

T. A. HORNISBROOK Pres. J. CHAS. YULE Gen. Mgr. Write For Seat Reservations

LOCAL & GENERAL

Ross Bowman, who is with the Calgary Power Co. at Seabee, is spending his vacation at his home.

Mrs. J. C. McPherson and two children, of Edmonton, are visiting Mrs. H. S. Beveridge.

Cpl. Dave Walders, of the R.C.A.F., Calgary, along with his wife and child, is visiting his parents here, on a week's leave.

It is reported that Allen Hunsperger is going to take a trip to Ontario.

Mrs. R. Bussard and son, of Turner Valley, was visiting her parents, Mr. and Mrs. George Walders.

Mrs. Len Berscht left on Friday for Vancouver to join her husband, AC 2 Berscht, who has been transferred from Edmonton to that city.

The "15" Knitting Club held its last meeting of the season at the home of Mrs. H. Lynch-Staunton. During the year 50 articles were knitted and handed in to the Red Cross.

I hate love, it interferes with my work. Yet I am only human. W. Somerset Maugham's, in "The Moon and Sixpence", starring George Sanders and Herbert Marshall, at the Didsbury Theatre this week.

Ed. Buhr, Jr., is visiting his home here for a few days. Having received an honorable discharge from the airforce for medical reasons, he has taken a position with the Government meteorological service at Calgary.

L.A.C. John Bruce, who has been home on furlough and spring leave for the past month, will return to No. 8 Bombing and Gunnery school, Lethbridge, on Thursday, to resume his duties with the R.C.A.F.

L.A.C. Ronald Brightman, who has been transferred from Alleford Bay, B.C., to Patricia Bay, Vancouver Island, was visiting friends here for a few days this week. He visited his father at Sandre on Sunday.

Mrs. J. L. Field, of Aruba, Netherlands West Indies, is visiting with her parents, Mr. and Mrs. F. W. Laeson. It will be remembered that a large oil refinery on Aruba, which is in the Caribbean Sea, was attacked by German Submarines in February, 1942.

Miss Lois Edwards entertained a number of her Calgary friends on Sunday at the home of her parents, Mr. and Mrs. Dave Edwards. Miss Edwards, who has been given leave of absence from her position with the Alberta Government Telephones, has joined the Canadian Navy W.D. She is spending a few days at home before reporting for duty. Before leaving Calgary she was presented a Parker pen and pencil set, a purse and wallet by the staff of the Calgary office of the Alberta Telephones, and initiated linen handkerchiefs by the Knitting Club.

LOCAL & GENERAL

There will be a service at St. Cyprian's Church on Sunday, June 6th, at 3 p.m.

A.C.I. Eugene Durrer, who is stationed at Yorkton, Sask., is home on leave this week.

Born, to Mr. and Mrs. Ervin Klinck, at the Olds hospital, on May 30, a daughter.

Mr. and Mrs. Harold Erb and baby Merilyn, of Calgary, visited with the latter's father, Mr. H. Erb, last week.

Bernal Rinehart, son of Mr. C. Rinehart, Didsbury, enlisted in the R.C.A.F. on Thursday last, and immediately reported for duty.

Mrs. John Hislop and daughter, Primrose, of Los Angeles, Calif., is visiting with her parents, Mr. and Mrs. Hy. Pearson.

Mr. and Mrs. Max Hearst and two daughters, spent the weekend with the latter's parents, Mr. and Mrs. Harry Pearson.

Mr. and Mrs. F. A. Elves and son, Douglas, of Calgary, visited with Mr. and Mrs. F. W. Laeson over the weekend.

Piano Tuning! Virgil Goulson, tuner for the late Gavin Spencer, will be in town in the immediate future. Leave orders at "Pioneer" office.

Cpl. and Mrs. Alf Durrer spent the weekend at the home of the latter's parents, Mr. and Mrs. W. S. Durrer. Cpl. Durrer is stationed at the Clatskanie Airtraining School.

E. G. Ranton made his usual buying trip to Calgary, Wednesday. E. G. makes trips to Calgary almost weekly in order to keep his stock up to date.

It has been announced that an airforce recruit unit will be in Didsbury on June 7, when applications will be received for both the men's and women's divisions.

Miss Myrtle Erb, of Medicine Hat, visited her father, Mr. Henry Erb, last week. She is enroute for Vancouver, where she will be engaged in Salvation Army work.

Lawrence A. Hunter, son of Mrs. E. Hunter, of Burnside, enlisted in the R.C.A.F. on May 24, as aero mechanic. He will report for duty on June 7.

Senior Ladies Aid of the Knox United Church, will meet at the home of Mrs. Laeson this Friday, June 4. Cars will be at the church at 2:30.

Dave Jenkins resigned his position with the Builder's Hardware last weekend, and has taken a position on Provincial Government road construction. He left for High Prairie on Tuesday.

Westcott Notes

The Westcott W.I. met at the home of Mrs. Jack Robertson, on May 27. There were ten members and one visitor present.

The roll call was the handing in of flower slips and seeds. Gardening was the main topic for the afternoon. Exchange of ideas on above subject were good.

Seventh of July was the date set for the W.I. picnic, which is to be held at the Jacobson picnic grounds. Everyone welcome, and bring your own lunch basket.

The constituency conference is to be held at Didsbury, June 11.

The meeting closed in the usual manner.

Russian General Praises Canadian Tanks

VALENTINE tanks, produced at the Canadian Pacific Railway's Angus Shops in Montreal, have been called by the Russians the best of all imported tanks they used in crushing Hitler's armor. Major General I. A. Elyayev, chairman of the Soviet Government Purchasing Commission in the United States, has been quoted by W. C. D. Howe, Minister of Munitions and Supply in Ottawa, as saying "The Canadian tanks Valentine VII have shown good results in combat and are the best of all imported tanks." The Soviet general's tribute was in response to a request from Mr. Howe for a report on the Valentines' part in the Russian offensive. It preceded a congratulatory message sent by General Elyayev to H. B. Bowen, chief of motive power

and rolling stock for the Canadian Pacific Railway, on the completion of the Valentine contract early in May, with the needs of a global war having dictated a switch to other weapons. At this time J. H. Berry, Canadian director general of tank production, also congratulated Mr. Bowen and Canadian Pacific personnel for having delivered the goods on time.

—Canadian Pacific Press
